Excellence in Ingredients

VASAS[®]

VASA PHARMACHEM PVT. LTD.

COMPANY PROFILE

Dr. Jaimin Vasa
Chairman and
Managing Director

Punctuality is the soul of business and Discipline is the bridge between goals and accomplishment.

Vision

We aspire to become a globally acknowledged and a dynamic corporation that delivers solutions that is ahead of its time. With every endeavour of ours, we will be committed to enriching the quality of life.

Fostering excellence, through our Values

Our Values

- T**reat others as you would like to be treated yourself
- R**esponsible-the reputation of the organization is in the Hands of Each Individual
- A**lways say 'We' or 'Us', Never say 'I' or 'Me'
- I**dentify-if you don't look after your customer, then someone else will
- N**ever make an excuse, always deliver what you promise

About Us

Manufacturing Trust Through Excellence in Ingredients Since 1988

"Vasa Pharmachem Pvt. Ltd. is a leading manufacturer of exceptionally pure mineral salts and a dynamic range of high-performance excipients. We have been offering world-class products to our valued customers since 1988. Our offerings **"NUTRIMIN Minerals,"** and **"ACTAA EXCIPIENTS,"** are setting new standards for performance, every day. Our commitment to excellence is further reinforced by **two state-of-the-art production facilities** and a **centralized warehouse.**

Our extensive portfolio of "NUTRIMIN mineral salts" and "ACTAA excipients" adhere to the highest quality standards, including IP/BP/EP/USP/FCC/E-series, making them suitable for a wide range of applications and various dosage forms in the Pharmaceutical, Nutraceutical, Food and Beverage, and Personal Healthcare industries."

Corporate House

Robust Manufacturing Facilities

Strengthening the trust bestowed upon us

At Vasa Pharmachem Pvt. Ltd., our entire range of products are manufactured and tested on site as per cGMP and FSSC 22000, thus ensuring high purity and consistent quality products

- **Facilities are designed to eliminate cross-contamination**
- **Optimized Processes for enhanced Cost-effectiveness**
- **Flawless Product Consistency, Traceability and Stability**
- **Consistent deliverables everyday, every time**
- **Significant cost reduction, enhanced bottom-line for our clients**
- **Manufacturing products as per precise requirements of Purity, Particle Size or Density**

Manufacturing pure quality products

Our infrastructure has been a vital foundation on which we have built our success so far, manufacturing solutions for a varied products required by different industries, as per different certifications. We always believe in enriching our manufacturing capabilities and thus keep upgrading our machineries and technologies from time to time.

Accreditations

GMP Approved Plant

Halal Certified

RSPO Certified

Kosher Certified

ISO Certified
9001, 14001, 45001

FSSC 22000 Certified

ACETATES	LACTATES	OXIDES
PRE-MIXES	GLIDANTS	CO-PROCESSED BLENDS
LUBRICANTS	CITRATES	
SUPER DISINTEGRANTS	CARBONATES	DC GRADES
FILLERS/BINDERS	MALATES	GLUCONATES

Customised engineering

Enhancing performance

- Micronization
- Granulation
- Ultra-pure grade
- Directly Compressible grades
- Co-processed Mineral blends
- Premixes
- Micro-encapsulation

Quality Initiatives at a glimpse

- Complete Quality Management and Production Management system driven approach
- Quality Control department with strict adherence to GLP standards
- Encouraging Facility Audit by Prospective Customers

WHO and EXCiPACT Soon...

Product Portfolio

VASAS®

VASAS®

ACETATES

Calcium Acetate
Potassium Acetate
Zinc Acetate

CITRATES

Citric Acid Mono/Anhy.
Calcium Citrate
Magnesium Citrate
Monosodium Citrate
Potassium Citrate
Sodium Citrate
Zinc Citrate
Disodium Hydrogen Citrate

CARBONATES

Magnesium Carbonate
Calcium Carbonate
Lithium Carbonate
Sodium Carbonate

LACTATES

Calcium Lactate
Magnesium Lactate
Zinc Lactate

GLUCONATES

Calcium Gluconate
Magnesium Gluconate
Zinc Gluconate

OXIDES

Magnesium Oxide
(Light), (Heavy) & (Granular)
Zinc Oxide

MALATES

Calcium Malate
Magnesium Malate

SUPER DISINTEGRANTS

Sodium Starch Glycolate (Potato/Maize)
Croscarmellose Sodium

LUBRICANTS/ANTIADHERENTS

Magnesium Stearate
Calcium Stearate
Sodium Stearate
Zinc Stearate
Aluminium Stearate

FILLERS/DILUENTS/BINDERS

Microcrystalline Cellulose - 101
Microcrystalline Cellulose - 102
Microcrystalline Cellulose - 12
Microcrystalline Cellulose - 112
Microcrystalline Cellulose - 200
Microcrystalline Cellulose - RC 591
Microcrystalline Cellulose - 105

We Customise to empower your production

NUTRIGRAN

DIRECT COMPRESSIBLE GRADES

- Calcium Carbonate DC (90/ 92.5/ 95)
- Calcium Citrate DC
- Calcium Citrate Malate DC
- Calcium Gluconate DC
- Calcium Lactate DC
- Dicalcium Phosphate DC
- Magnesium Carbonate DC
- Magnesium Citrate DC
- Magnesium Hydroxide DC
- Magnesium Gluconate DC
- Magnesium Lactate DC
- Magnesium Oxide DC
- Zinc Gluconate DC

Advantages

- Cost-effective production
- Faster dissolution
- Simplified validation

NUTRIBLEND

CO-PROCESSED BLENDS

- Calcium Citrate Malate
- Potassium Magnesium Citrate
- Sodium Potassium Citrate
- Zinc Lactate Gluconate
- Calcium Lactate Gluconate
- Aluminium Magnesium Hydroxide
- Magnesium Citrate Malate
- Magnesium Lactate Gluconate

Advantages

- Removable of undesirable properties
- Providing a single product with multiple functions

NUTRIMIX

PREMIXES

- Calcium Citrate + Vitamin D3 DC Granules for Tablets
- Calcium Citrate + Calcitriol + Zinc Sulphate DC Granules for Tablets
- Magnesium Hydroxide + Aluminium Hydroxide Granules for Oral Suspension
- Magnesium Hydroxide + Aluminium Hydroxide DC Granules for Tablets
- Ferrous Ascorbate + Folic Acid + Zinc Sulphate DC Granules for Tablets
- Ferrous Sulphate DC Granules for Tablets
- Potassium Magnesium Citrate Granules for Sachet
- Magnesium Oxide DC Granules for Tablets
- Calcium Lactate DC Granules for Tablets
- Calcium Citrate Malate + Magnesium Hydroxide + Zinc Sulphate + Vitamin D3 + Folic Acid DC Granules for Tablets

Advantages

- Saves Formulation development and associated cost
- Reduces Development Time
- Customized Formulation Development

Products as per IP/BP/EP/USP/FCC/E-series

Applications

VASAS®

Pharmaceuticals

Calcium Acetate
 Potassium Acetate
 Zinc Acetate
 Citric Acid Mono/Anhy.
 Calcium Citrate
 Magnesium Citrate
 Monosodium Citrate

Quality in everything we do

VASAS[®]

Innovation Powered by Research

Our company takes great pride in the strength of our Research and Development (R&D) team, which plays a pivotal role in tailoring our products to meet the unique needs of our clients. Our dedicated R&D professionals possess the expertise to customize our offerings, ensuring they align seamlessly with the end formulations. This versatility allows us to deliver products with product modifications as below

Chemical Product Modifications

- Customization to increase the mineral content as per industry needs
- Increase solubility according to dosage form
- pH modification in products

Physical Product Modifications

- Customize directly compressible grades and micronized powders
- Optimize BD to produce effective application

Increased Purity

- Low Heavy Metal Grades
- Low Endotoxin Grades
- High Purity Ingredients

VASAS[®]

Formulation Development Lab Service

We have fortified our services with a state-of-the-art application lab, showcasing our dedication to tailor solutions to our clients' specific needs. Our steadfast focus on customization and rigorous testing underscores our commitment to delivering top-tier quality in the pharmaceutical industry. Our application lab supports

- **Suitability of mineral salts in final formulations**
- **Comparative analysis of Product performance**
- **Excipient performance**
- **Pilot batch trials of finished formulations**
- **Prototype formulations for diverse nutritional supplements**
