

Think Magnesium Think VASA!!!

Marine Magnesium Oxide

As an API and Excipient

Key Attributes

Available as very light Powder to Heavy Granules

Optimized Specific Area (50-130m²)

Bulk Density – 0.1 gm/ml to 1.0 gm/ml

Excellent compressibility and Flow properties

High Purity (Assay>98%)

Higher Reactivity

Accreditations

WHO-GMP

EXCiPACT

**KOSHER
Kosher Certified**

9001, 14001, 45001

FSSC 22000

Empowering Pharma with Trusted Compliance

DMF registered

TUPP Study

Elemental Impurity Study

Low Lead and Cadmium

Nitrosamine Impurity Study

Magnesium Oxide Grades - IP/BP/EP/JP/CP/FCC/E530

Sr. No.	Product Name	Product Code	Type	B.D in gm/ml
1	Light Magnesium Oxide	D/MO-LD10	Powder	NMT 0.15
2	Light Magnesium Oxide	D/MO-LD15	Powder	015-0.40
3	Light Magnesium Oxide	D/MO-LD20	Powder	0.15-0.30
4	Heavy Magnesium Oxide	D/MO-HD25	Powder	NLT 0.25
5	Heavy Magnesium Oxide DC	D/MO-HD55	Granules	0.55-0.75
6	Heavy Magnesium Oxide DC	D/MO-HD80	Granules	NLT 0.80
7	Heavy Magnesium Oxide	D/MO-HD80-1	Fine Granules	NLT 0.80

Applications Across Industries

Pharmaceuticals

API

- Antacid and laxative
- Magnesium supplementation

EXCIPIENT

- Alkalizing agent, tablet filler,
- Flow agent and moisture absorber

DOSAGE FORMS

- Tablets, Soft Gelatin Capsules
- Sachet & Effervescent powders

Nutraceuticals

MAGNESIUM SUPPLEMENT

- Bone and Muscle Support
- Improve Digestive Health
- Relief of Migraine
- Muscle and Nerve Function

DOSAGE FORMS

- Tablets, Capsules
- Sachets & Protein Powder

Food and Beverage

As a key stabilizer

- Balances acidity
- Anticaking agent
- Firming Agent
- Acidity Regulator
- pH Adjuster

USED FOR

- Fortified Food
- Sports Drinks
- Canned Foods

Cosmetic & Personal Healthcare

As a key ingredient

- pH controller
- Absorbent
- Buffering Agent
- Neutralizing Agent

USED FOR

- Sunscreens
- Bath Products
- Hair and Skin Products

Other Magnesium Variants

Magnesium Citrate

Magnesium Gluconate

Magnesium Lactate

Magnesium Malate

Magnesium Stearate
